FOOD CORPORATION OF INDIA

MESSAGE

Food Corporation of India will be observing Vigilance Awareness Week from 30th October to 5th November 2023 on the following theme:

"भ्रष्टाचार का विरोध करें; राष्ट्र के प्रति समर्पित रहें"
"Say no to corruption; commit to the Nation"

FCI is a premier organisation of the Government of India which has played a vital role in transforming the crisis management-oriented food security of the country into a stable food security system. The role of the organisation becomes even more significant in the backdrop of the National Food Security Act, 2013, which commits to distributing grains through TPDS and other welfare schemes, at highly subsidized prices. The organisation continuously endeavours to leverage technology and explore new strategies to increase efficiency in its operations and transparency in its administration to overcome the challenges involved in eradicating corruption.

I am glad to know that this year during the campaign period vigorous measures have been taken to create awareness on 'Public Interest Disclosure and Protection of Informers Resolution' and organising 'training of trainers' to build capacity across the organisation in the areas of preventive vigilance. I believe that the efforts would strengthen the preventive vigilance functions in the organisation.

Organising Vigilance Awareness Week reaffirms our dedication to increasing awareness among employees and stakeholders about the perils of corruption. I hope to see all the employees of the Corporation and stakeholders collectively participate in large numbers to combat corruption and I wish Vigilance Awareness Week, 2023 a great success.

(Ashok K. K. Meena)
Chairman and Managing Director
